Karachi, Pakistan | Arshanxshanu@gmail.com | 0337-2024610 | github.com/ArshanKhan44 | arshankhan44.github.io

PROFESSIONAL SUMMARY

AI Marketing-focused Social Media Strategist and Graphic Designer transitioning into AI Engineering, currently completing the AI Marketing track of the Flyrank AI Internship. Hands-on experience applying SEO, content strategy, and AI-powered workflows (Canva AI, AI content and image generation) to grow YouTube, Instagram, and Facebook accounts and deliver client design work. Also pursuing a 3-year Full Stack Web Development / Software Engineering diploma at Aptech (Semester 1 completed with Distinction), with working skills in HTML, CSS, JavaScript, jQuery, PHP, SQL, Laravel, and WordPress. Building AI/ML foundations through a completed tech fellowship and structured self-study, while growing a portfolio of AI and web development projects.

CORE SKILLS

- Graphic Design: YouTube Thumbnails (High CTR), Logo Design, Social Media Posts, Brand Identity — Canva, Canva AI, Adobe Photoshop (Basic), AI image-generation tools
- AI-Powered Social Media Marketing: using AI tools to plan, generate, and optimize content, captions, and campaigns
- Social Media Management (Facebook, Instagram, YouTube)
- Content Creation & Reels Strategy
- SEO Basics & Content Optimization
- YouTube Channel Optimization
- Analytics & Performance Tracking (Basic)
- Web Development: HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, SQL, Laravel, WordPress

PROJECTS

Courier Management System — Team Project

Aptech

- Built a full-stack courier management system covering booking, tracking, and delivery status workflows
- Awarded "Project of the Month" at Aptech for outstanding execution
- GitHub: github.com/ArshanKhan44/courierms

Vinegar Restaurant — Team Project

Aptech

- Designed and developed a restaurant ordering/management web application as part of a team
- GitHub: github.com/ArshanKhan44/Vinegar-Restaurant

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer — Self-Employed

2024 – Present

- Designed a 13-file SVG/PNG logo suite for GOALACT, a football media-technology platform (Australia), delivering a cohesive sports-tech brand identity across formats

- Delivered a product catalogue and luxury cover design for OTUS Synthetic (housekeeping products), managing client requirements around sample delivery and revisions
- Produced a precision-controlled animated logo GIF for SPM Thailand Vehicle Exporter, coordinating which brand elements moved vs. stayed static
- Applied Canva, Canva AI, and AI image-generation tools to speed up concept-to-delivery turnaround for client projects
- Designed custom YouTube thumbnails for 2 separate clients, delivered for use on their channels

Social Media Manager & Content Strategist — Arshan's EduWorld (Instagram) 2024 – Present

- Set up and am currently growing Arshan's EduWorld, an Instagram account, by building a content strategy covering bio optimization, hashtag selection, and Reels audio choices
- Applied SEO and content-strategy techniques to improve content discoverability and audience reach
- Wrote engaging captions and applied hashtag strategies, increasingly assisted by AI tools

YouTube Channel Manager — Self-Managed 2023 – Present

- Designed 100+ high-CTR YouTube thumbnails, directly improving Click-Through Rates on uploaded videos
- Optimized YouTube titles, descriptions, and tags using SEO principles to improve search visibility
- Tracked performance metrics (views, CTR, watch time) via YouTube Studio and used insights to refine content strategy
- Wrote scripts for YouTube videos and social media reels, researching trending topics and audience interests
- Set up and optimized a YouTube channel around an original rap release that went viral on TikTok
